VISION FOR THE FUTURE

NYU Graduate wins free laser eye surgery from world-renowned eye surgeon

New York, NY – May 29, 2008... Recent NYU graduate **Diane Castelucci** will receive the most advanced laser eye surgery on **July 23, 2008**, after winning a school raffle last March. World-renowned eye surgeon **Emil William Chynn, MD, MBA**, also an NYU alum, will perform the surgery during an open-to-the-public seminar at Park Avenue Laser Vision in Manhattan.

On July 23, 2008, Dr. Chynn will perform laser surgery on NYU student Diane Castelucci, who just graduated this May in special education. “What better way to start this exciting new chapter in my life than with perfect vision!” says Castelucci. **Anyone is welcome to come observe Castelucci’s surgery on July 23rd, through reservations only.**

An NYU Stern Business School graduate, Dr. Chynn is also a highly esteemed eye surgeon who has performed over 10,000 laser eye surgeries at a 100% success rate. Dr. Chynn was also the first surgeon in New York City to perform CustomVue MonoVision—the most advanced laser vision correction available, just approved by the FDA this March. He is one of the best-trained eye surgeons in the US, with degrees from Dartmouth University, Columbia Medical School, Harvard University, and Emory University.

Dr. Chynn holds FREE seminars every month that are open to the public where people considering laser eye surgery can learn more about laser vision correction and observe Dr. Chynn perform a live surgery. **FREE FOOD AND DRINKS**, and raffles at every seminar.

Park Avenue Laser Vision is the only center in New York City that performs 100% no, no flap, all laser vision correction. We perform only the safest and most effective type of Laser Eye Surgery - LASEK and epi-LASEK – no complications!

PALV is located at 102 E. 25th Street @ Park Ave South, New York, NY 10010
